

Henrik Solberg new technical salesman in Sweden

We are pleased that we have succeeded in gaining Henrik Solberg, an outstanding expert for the Swedish market.

Henrik Solberg brings with him everything we need to provide our customers with qualified and productivity-optimizing solutions. After training as a cutting machine operator, Henrik successfully continued his education to become a production technician. After 8 years working as a production technician, Henrik moved to sales. During the last 10 years, Henrik has worked as a technical salesman for cutting tools in Sweden and in the Nordic countries, which means that Henrik brings a lot of experience to us.

Henrik lives in Åkers styckebruk, a small town in Södermanland, with his wife and three children. In his spare time he tries to stay in shape on the paddle court and spend time with family and friends or go out in his boat to fish.

Do not hesitate to contact Henrik for your new projects:
